

Our Mission

Turbocam exists as a business for the purpose of honouring God, creating wealth for its employees and supporting Christian service to God and people.

Turbocam seeks to accomplish this purpose by achieving excellence in the manufacturing of turbomachinery parts by Five-axis machining and related technologies and satisfying the needs of our customers for quality, price, delivery and service.

As we interact with our customers, suppliers, and employees, we hold ourselves accountable to God's law as expressed in the Bible. We are committed to integrity in our financial and personal relationships.

Turbocam asks for the full support of its employees for its mission and serves its employees by offering them financial strength and stability in employment; a pleasant and challenging work environment; and opportunity to grow into their God-given potential by training and the sharing of responsibility and innovation.

T-UK Values –Ownership – Knowing what's required of us, being accountable for what we say we are going to do and taking responsibility for our equipment, environment, and our mistakes.

1. **Integrity** – Being honest and demonstrating strong moral principles, in all that we do.
2. **Respect** – Treating people in a way we want to be treated by being kind, generous, and consideration to those around us.
3. **Teamwork** – Appreciating, affirming, respecting, and developing one another while working together towards a common goal.
4. **Excellence** – taking pride in what we do as we work to the best of our ability while continuing to learn, improve and adapt to change.
